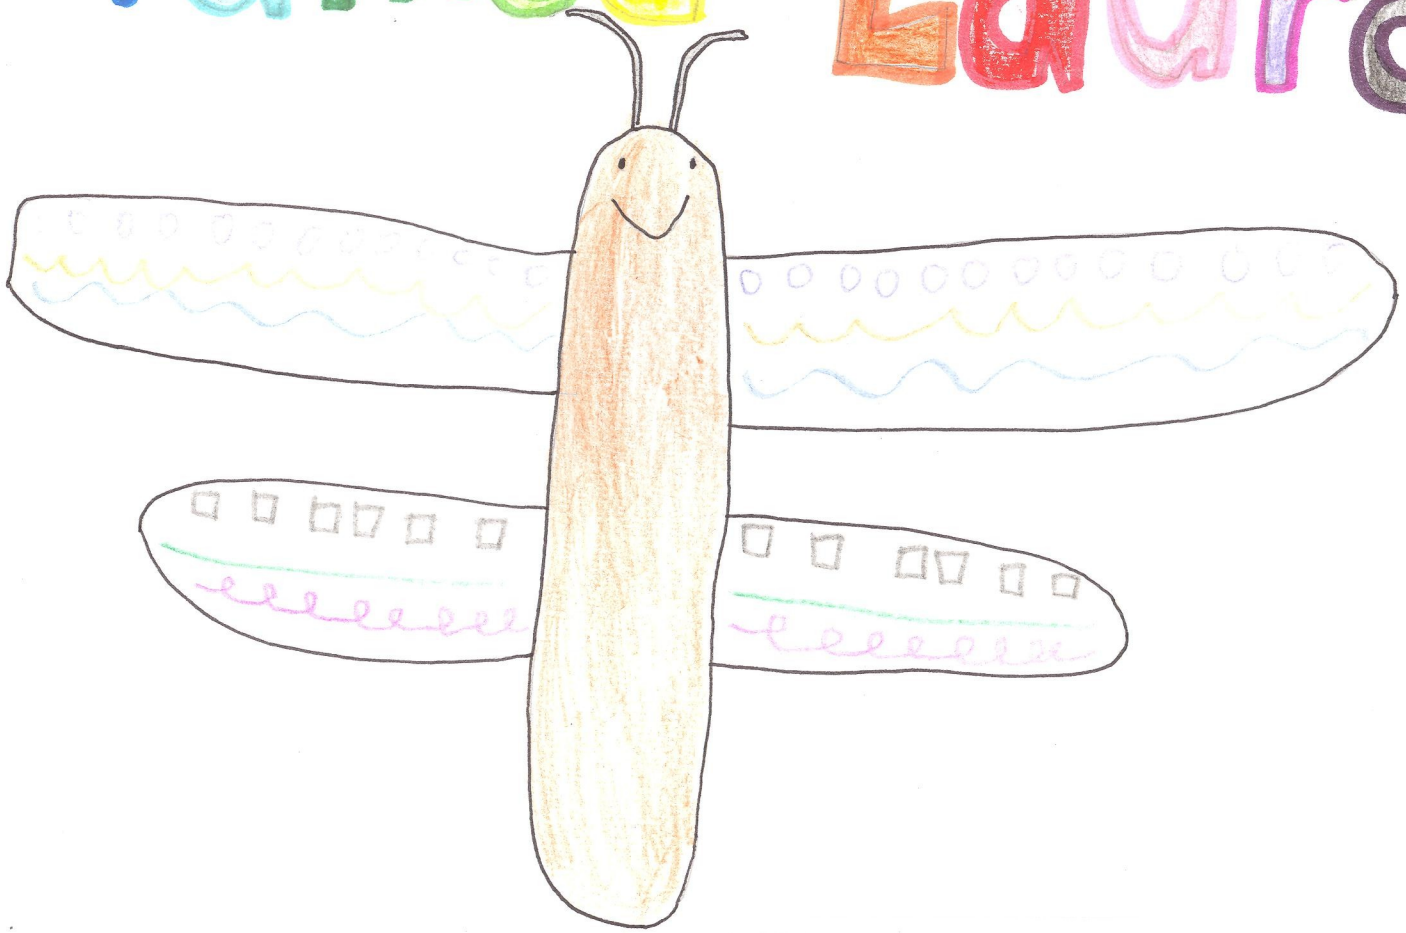
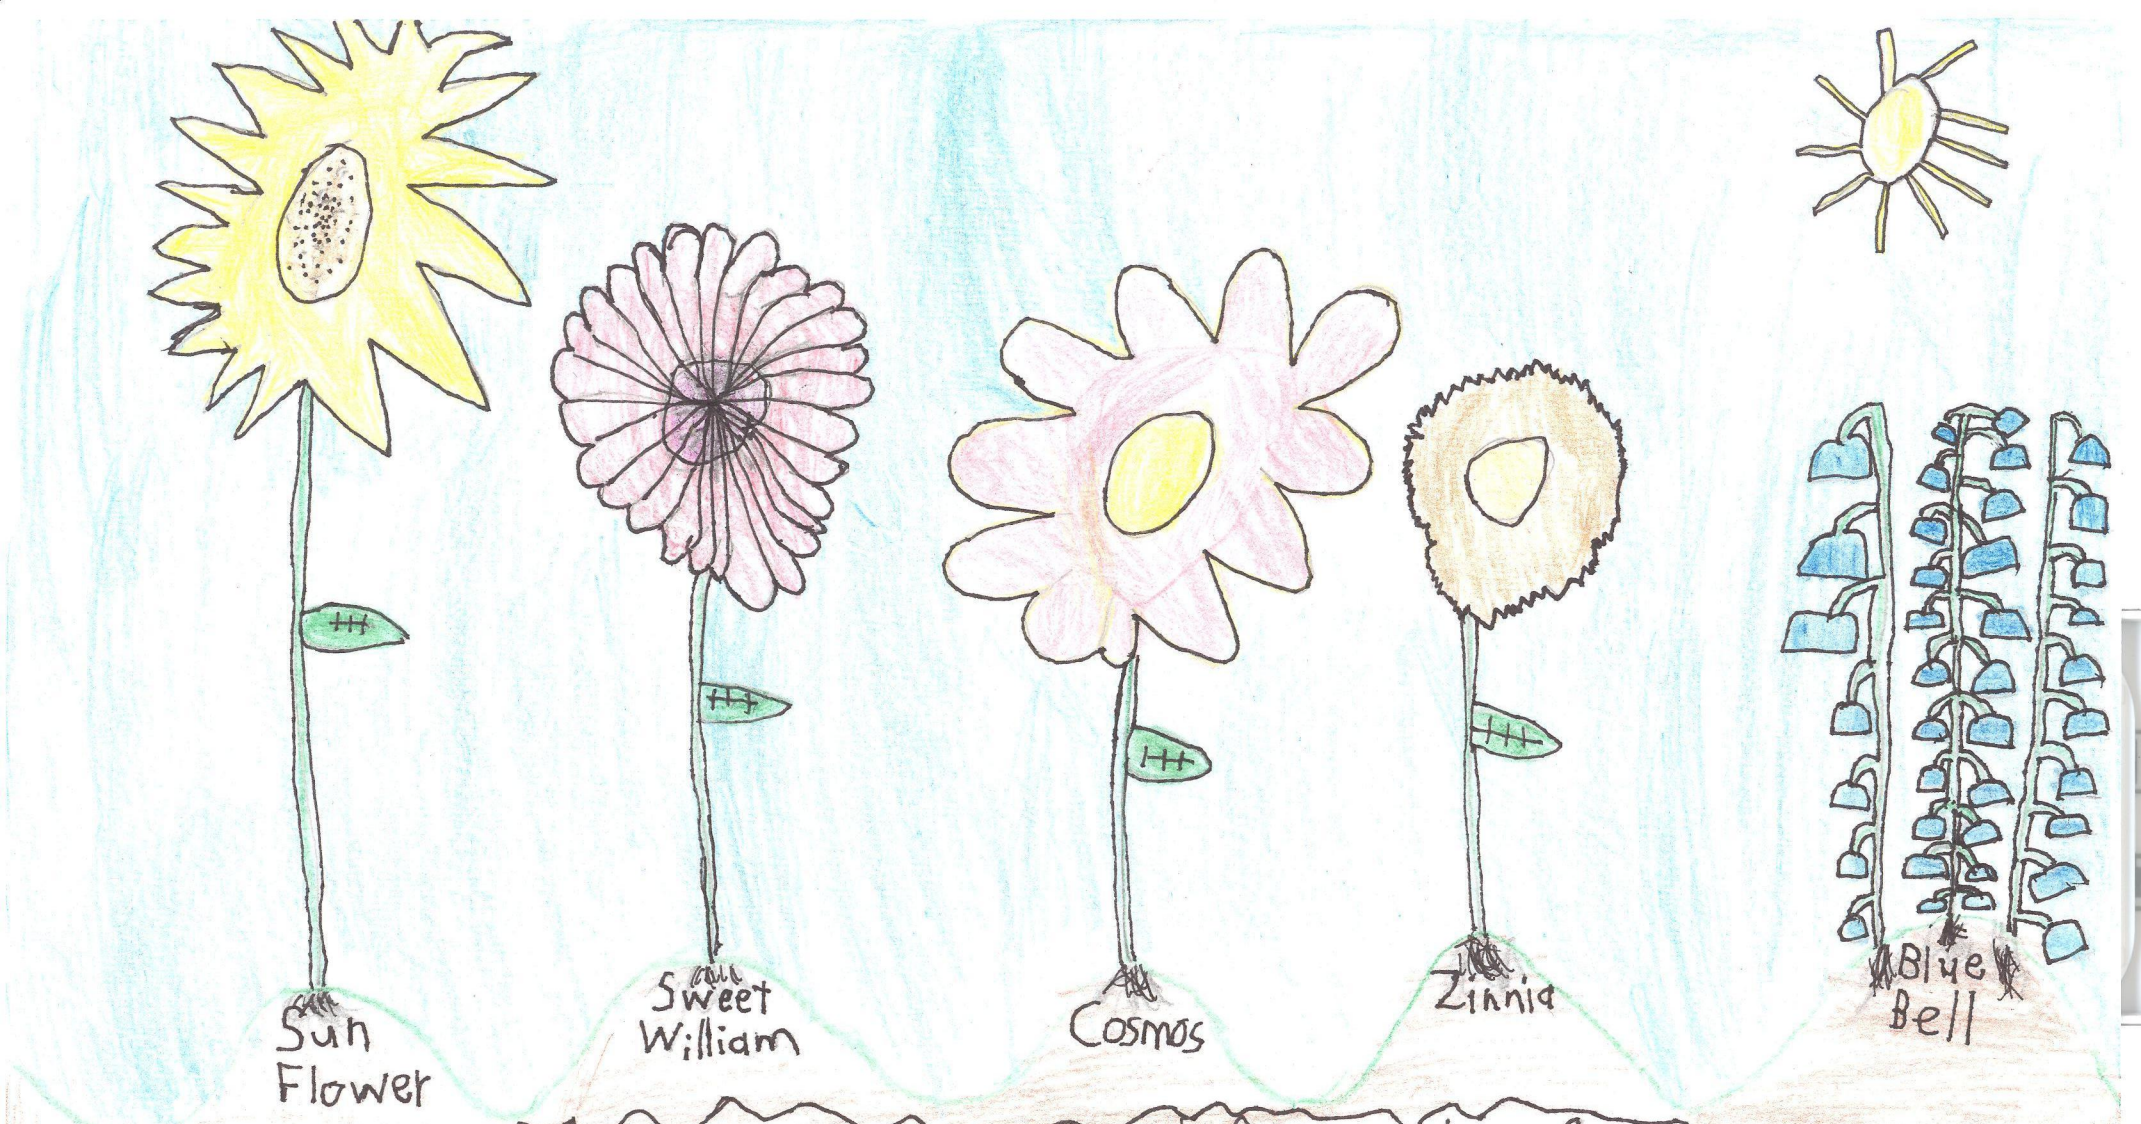
The Butterfly Named Laura



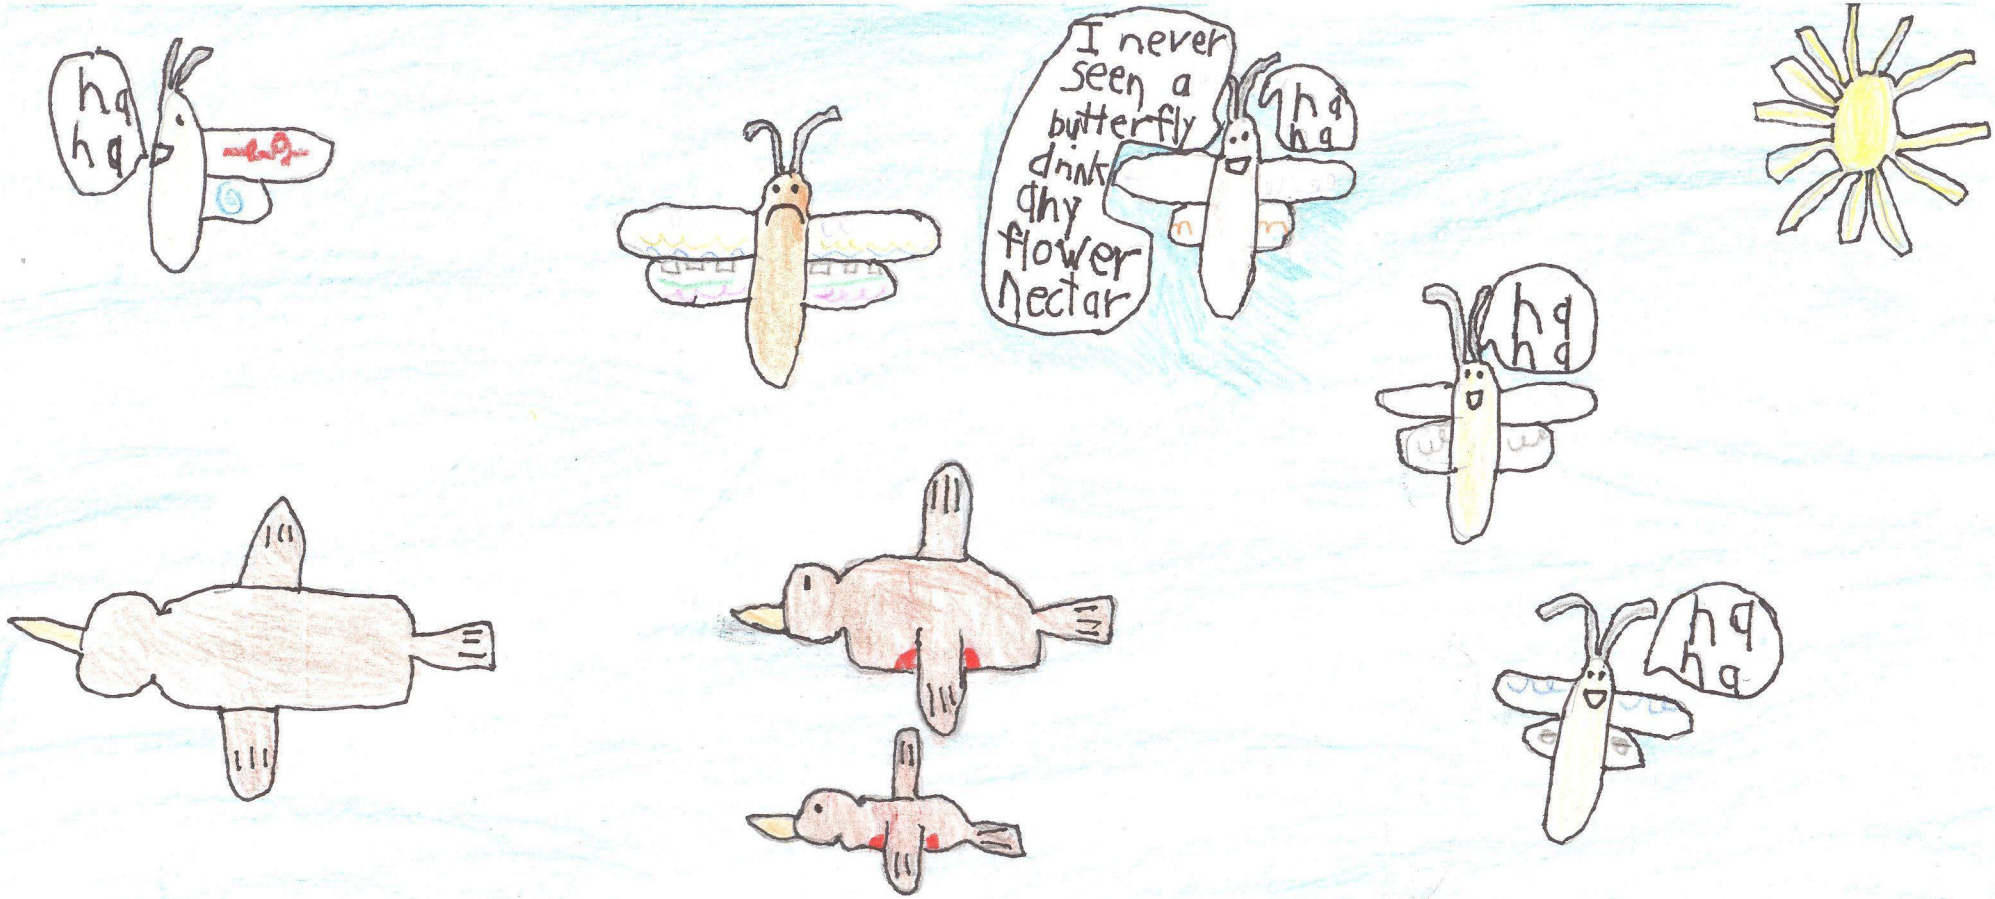
By

Once there was a butterfly named Laura. Laura liked flower nectar a lot.

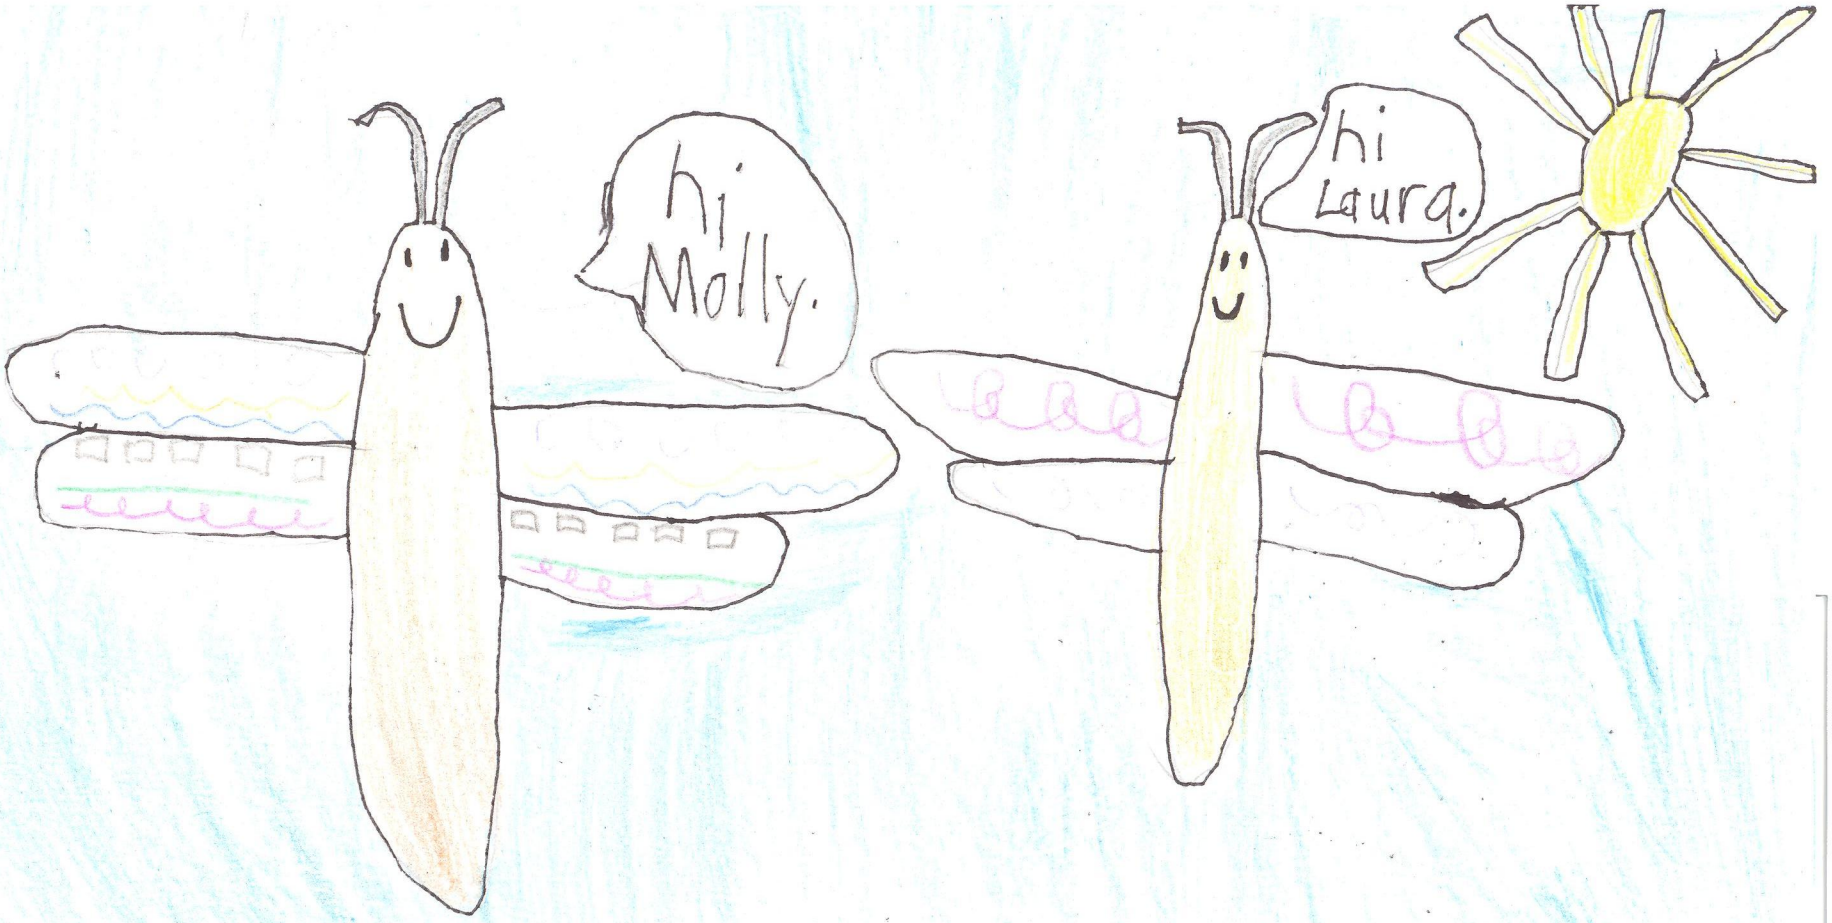


Laura was different from all the other butterflies. Laura drank any flower nectar. Laura favorite flowers were Blue Bell, Cosmos, Marigolds, Sweet Pea and Sweet William.

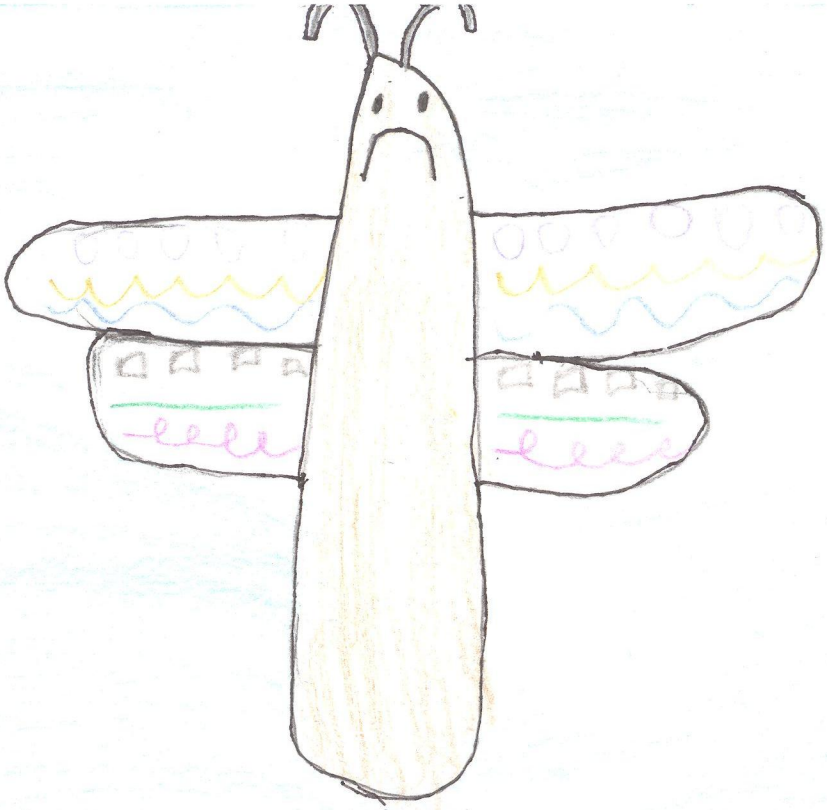
Fact: Butterflies only drink from one flower

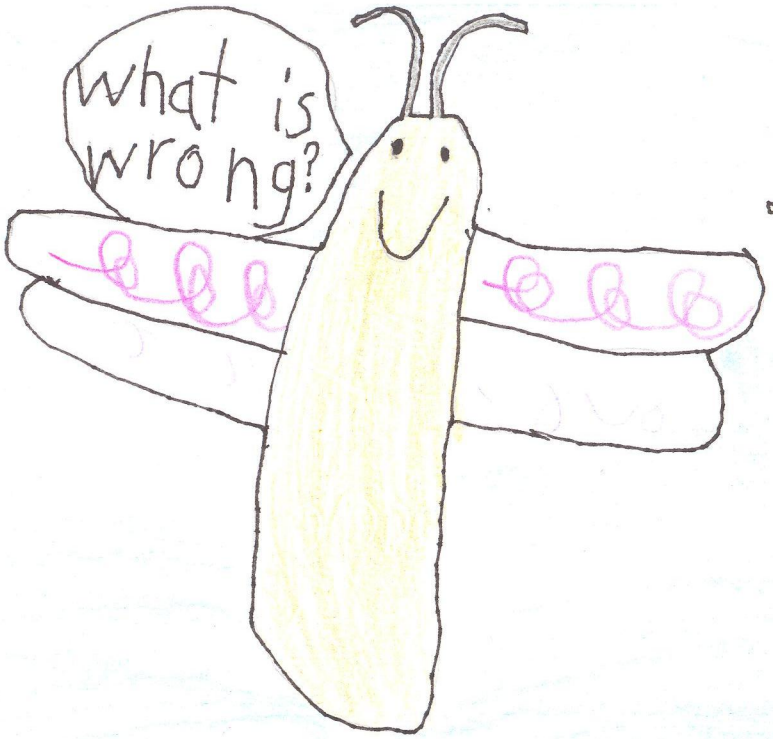


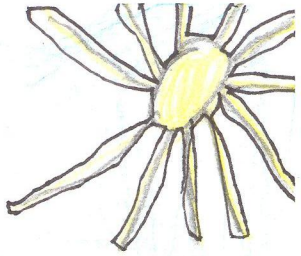
Everyone made fun of her even her friend Sue.



One day her best friend Molly came over. Molly always made Laura feel happy when she came over.







"What is wrong?" asked Molly when she came over. Laura told Molly about everyone making fun of her. "They should be sorry for themselves. Making fun of someone is not good. You feel special to me," Molly told Laura. Laura liked that she felt happy.
