

# ANIMAL NOISES

This farmyard tale book is a bright, friendly board book that's fun for adults and young children to share!

Publisher: Usborne Books

Illustrator: Stephen Cartwright

Designed by Joe Pedley

Ages: 9 months and up

Pages: 10

Themes: Animal identification & sounds

You don't have to live on a farm to enjoy all of the sounds that animals make. Sit down with your child and make a list of some animals that your child may be familiar with. You can go through magazines and cut out pictures of the animals on your list and glue them next to the word. Ask your child to say the name of the animal on the list and make the sound that each animal makes. Are there different ways to sound like the same animal (bow-wow; woof, woof; or arf, arf)?

This may be a good time to sing "Old McDonald Had a Farm"!
