

Elmo's World - Animals

Elmo says....."Animals live in different places. Animals move in many ways." Check out the flaps in this book and see what animals come to life for you and your child.

Publisher: Random House

Photography by: John E. Barrett

Ages: Toddler to Kindergarten

Pages: 10

Themes: Animal identification; finger dexterity; play acting like animals; exercise!

Let's face it.....Elmo is a rock star to toddlers. This book is an explosion of fun and education. Each page gives you an opportunity to ask your kids questions:

- Where is Elmo?
- What color is Elmo?
- Can you turn the page?
- (As you make animal sound from the page)
Can you tell me which animal makes this sound?
Can you make that sound, too?
- Can you open the flap?
- Have you ever seen this animal before? Where do they live?
- Can you dance? Sure we can!!

The key to this book is to have fun while you introduce your child to "Elmo's World" and the world around them. Don't take for granted that your child knows all about the things they see each day. Talk about it because you are your child's first teacher!
