Adults have a little different attitude about going to bed at night than our children. We look forward to getting a little "shut eye" and kids are afraid they're going to miss out on something fun!

As we have fun reading about Sam Sheep and his sleeping challenge, have some fun talking about what kind of beds and homes animals really sleep in compared to the rooms and beds the animals the book have. I'm not sure that I've ever seen a sheep or a pig sleep in a single bed before!! Fun situations like this in a book help your child to develop a sense of humor and you can help to build that.

Sam's friends were there to help him so here's another opportunity to talk about how important friends are.....whether you're a human or a sheep!
