

Family Fun!

- **Explore the Outdoors** ([Parents](#)) Rain or shine, anytime is a great time to get outside and explore.
- **PLUM LANDING** ([Parents/ Teachers](#)) PLUM LANDING is a digital project produced by WGBH, that uses animated webisodes, online games, free apps, hands-on science activities and live-action videos to help connect 6- to 9-year-olds to nature, teach them about ecosystems and excite them about their role as caretakers of the planet.
- **Space Racers** In these pages you'll find exciting and engaging family activities and lesson plans designed to teach children about the power of scientific investigation and observation, the wonders of space, and the importance of teamwork.

- **Plastic Bottle Birdfeeder** Introduction to concepts such as building, using tools, and following a plan.
- **Colorful Cosmic Crayons** Create a beautiful and colorful crayon that looks so much like a little planet, you'll think you've blasted into orbit!...
- **Biodome** A biodome is a container for growing plants that doesn't need watering. Can you make one? We'll show you how.
- **Color Roundup** Try this cool experiment at home.
- **Cooking with Kids** Let your kids help in the kitchen with these great ideas for kid friendly recipes. These recipes are not only a great learning experiences, but also food that everyone will have fun making too!
- **An Eggcellent Idea!** Try this cool experiment at home.

penny drop

- [Activities from Curious George](#) Cool hands-on activities from Curious George.
- [SID the Science KID](#) Activities from SID the Science KID for use at home and school!
- [Penny Drop](#) Try this cool experiment at home.
- [Homemade Kettle Corn](#) Make your own popcorn with a simple recipe for kettle corn just like the State Fairs from Alice Currah of Savory Sweet Life.
- [Cool Activities](#) Hands-on activities for children of any age.

- [Air Cannon](#) Pop a pom-pom up to the ceiling or across the room.
- [Heavy Lifting](#) Build a cardboard crane and see how heavy a load it can lift.
- [Raising Monarch Butterflies](#) Help your child learn about butterflies with this learning garden.
- [Discovering Senses](#) Through learning about the five senses, your child can compare human and animals senses.

- [Celery Rose Stamp](#) Use a celery heart to create an amazing celery rose stamp!...
- [TP Roll Butterflies](#) Make beautiful spring butterflies out recycled toilet paper rolls!
- [Exploring Flowers](#) Has your child ever noticed and admired flowers while you are out in the neighborhood? Maybe you have a garden or sometimes take home flowers to beautify your home. You can help your child learn more about them as together you observe, collect, and press interesting flowers.
- [Parent-Child Activities](#) These activities are for adults to do with a kid or group of kids. They are simple (and fun!) ways to use Martha's favorite words in everyday life.
