REX

by [redacted]

Our story begins at the time Rex was born. He was born as an egg and died seven years later. His bones were found in the Badlands. They took his bones to a museum and now he lives inside of his bones waiting for his friend, Kevin.

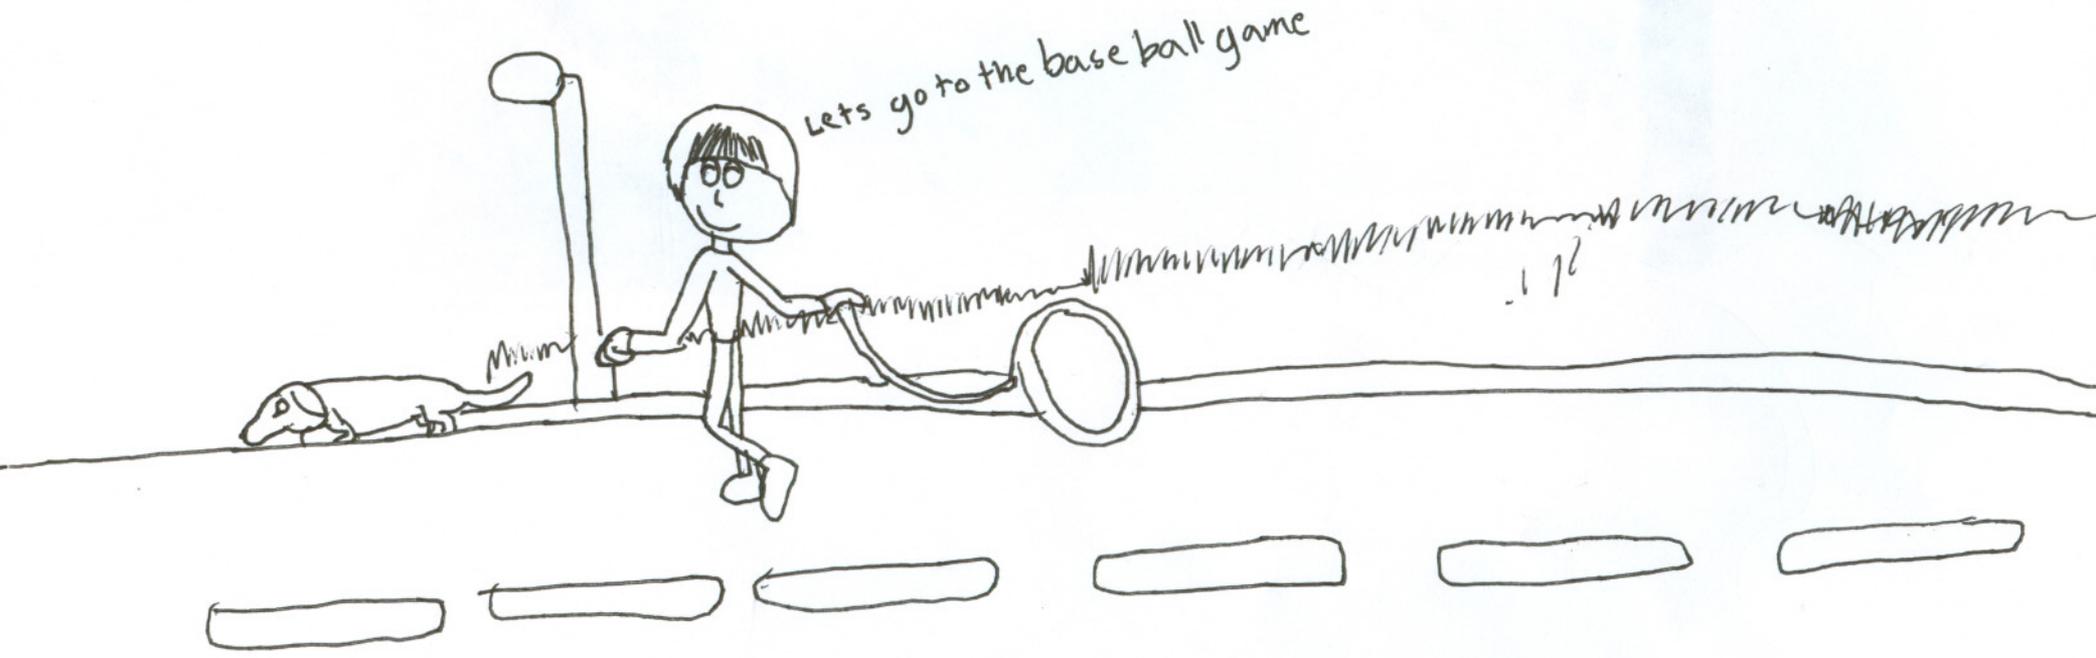

Kevin went to the museum every day. His mom worked at the museum and it was Rex's home. One night Rex came out of his bones and followed the boy and his dad home. When they looked back Rex went POOF!

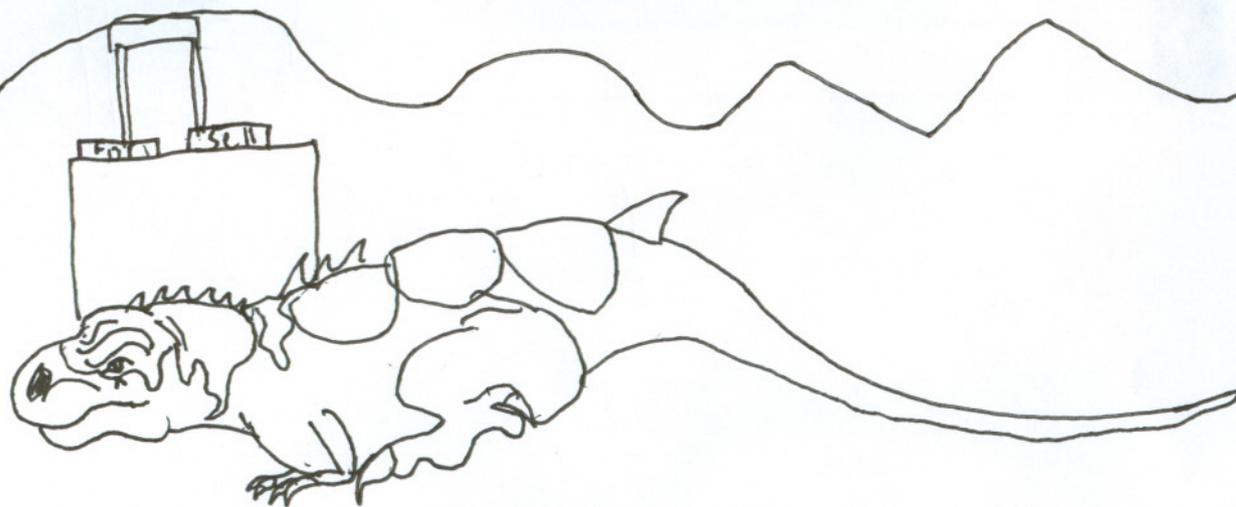

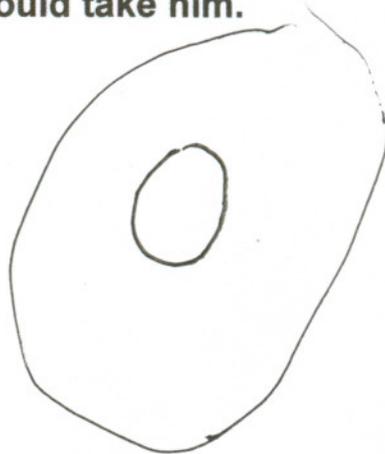

Kevin was sad because he wanted a friend and couldn't make one. That's when he saw Rex hiding behind the TV. Kevin wasn't scared of Rex. Rex peeked out from behind the TV, shaking. Kevin took a step forward and patted him on the head. Rex smiled.

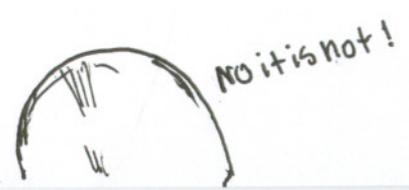

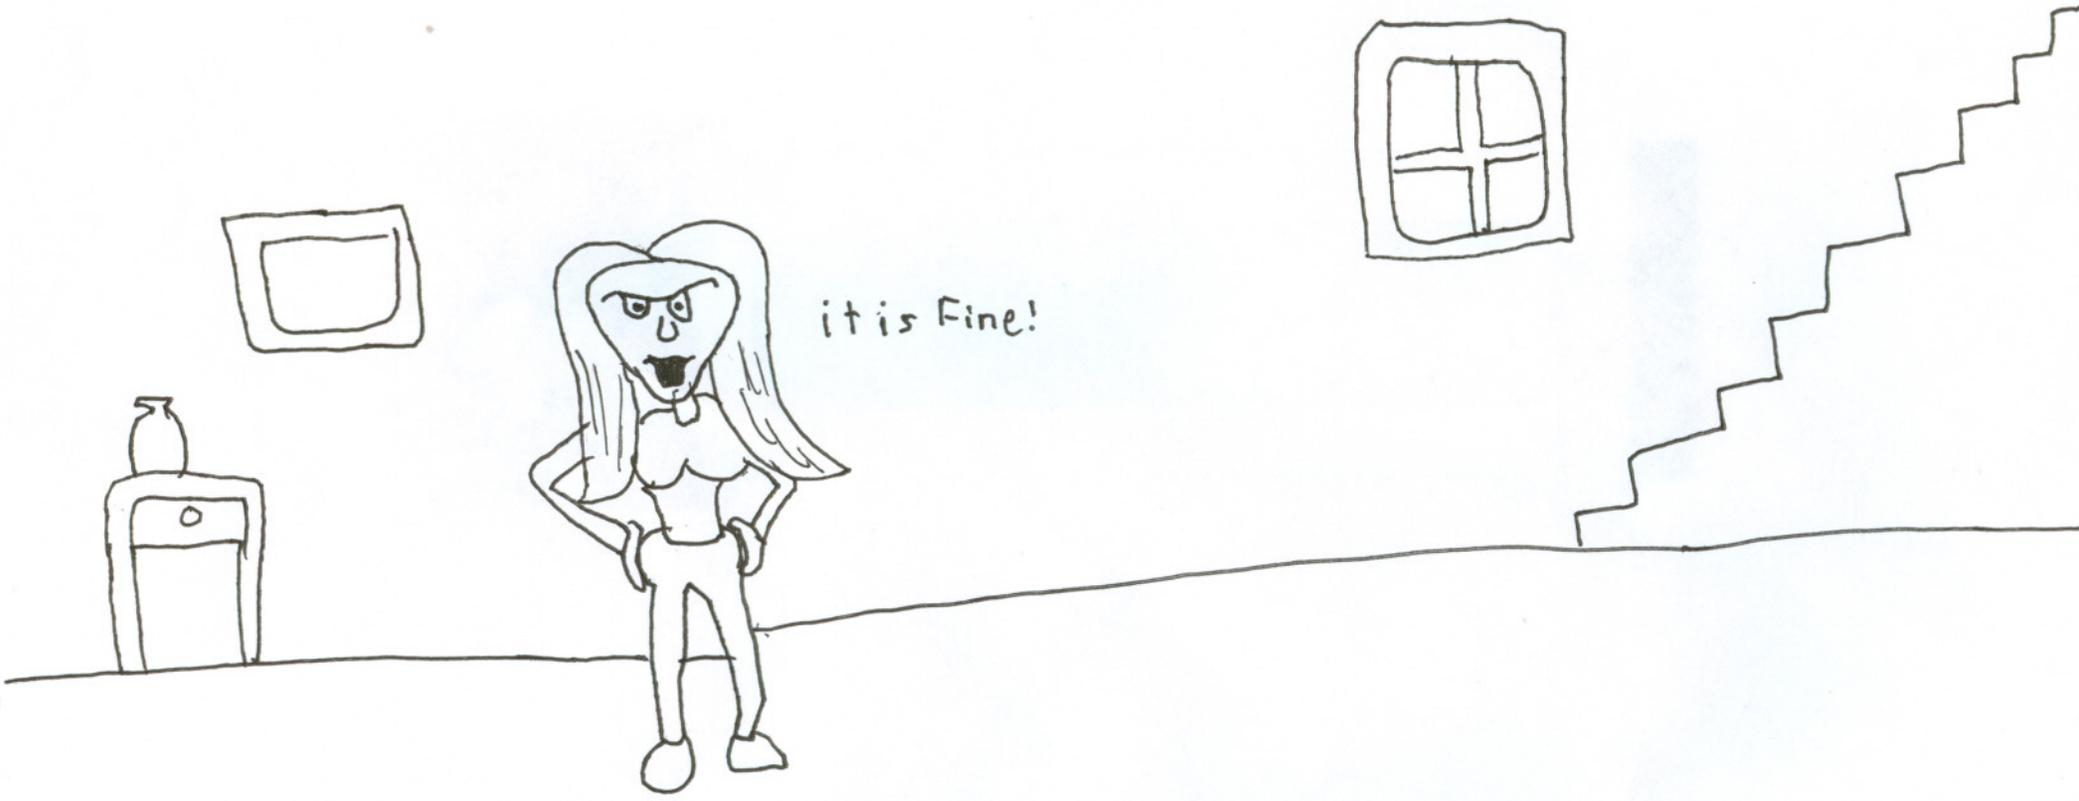

Kevin took Rex many places. He could never be seen, not even by a bug. Rex wanted to give Kevin a friend. They went lots and lots of places.

One day Kevin's mom saw Rex sleeping in Kevin's room. She wanted to sell him but no one would take him.

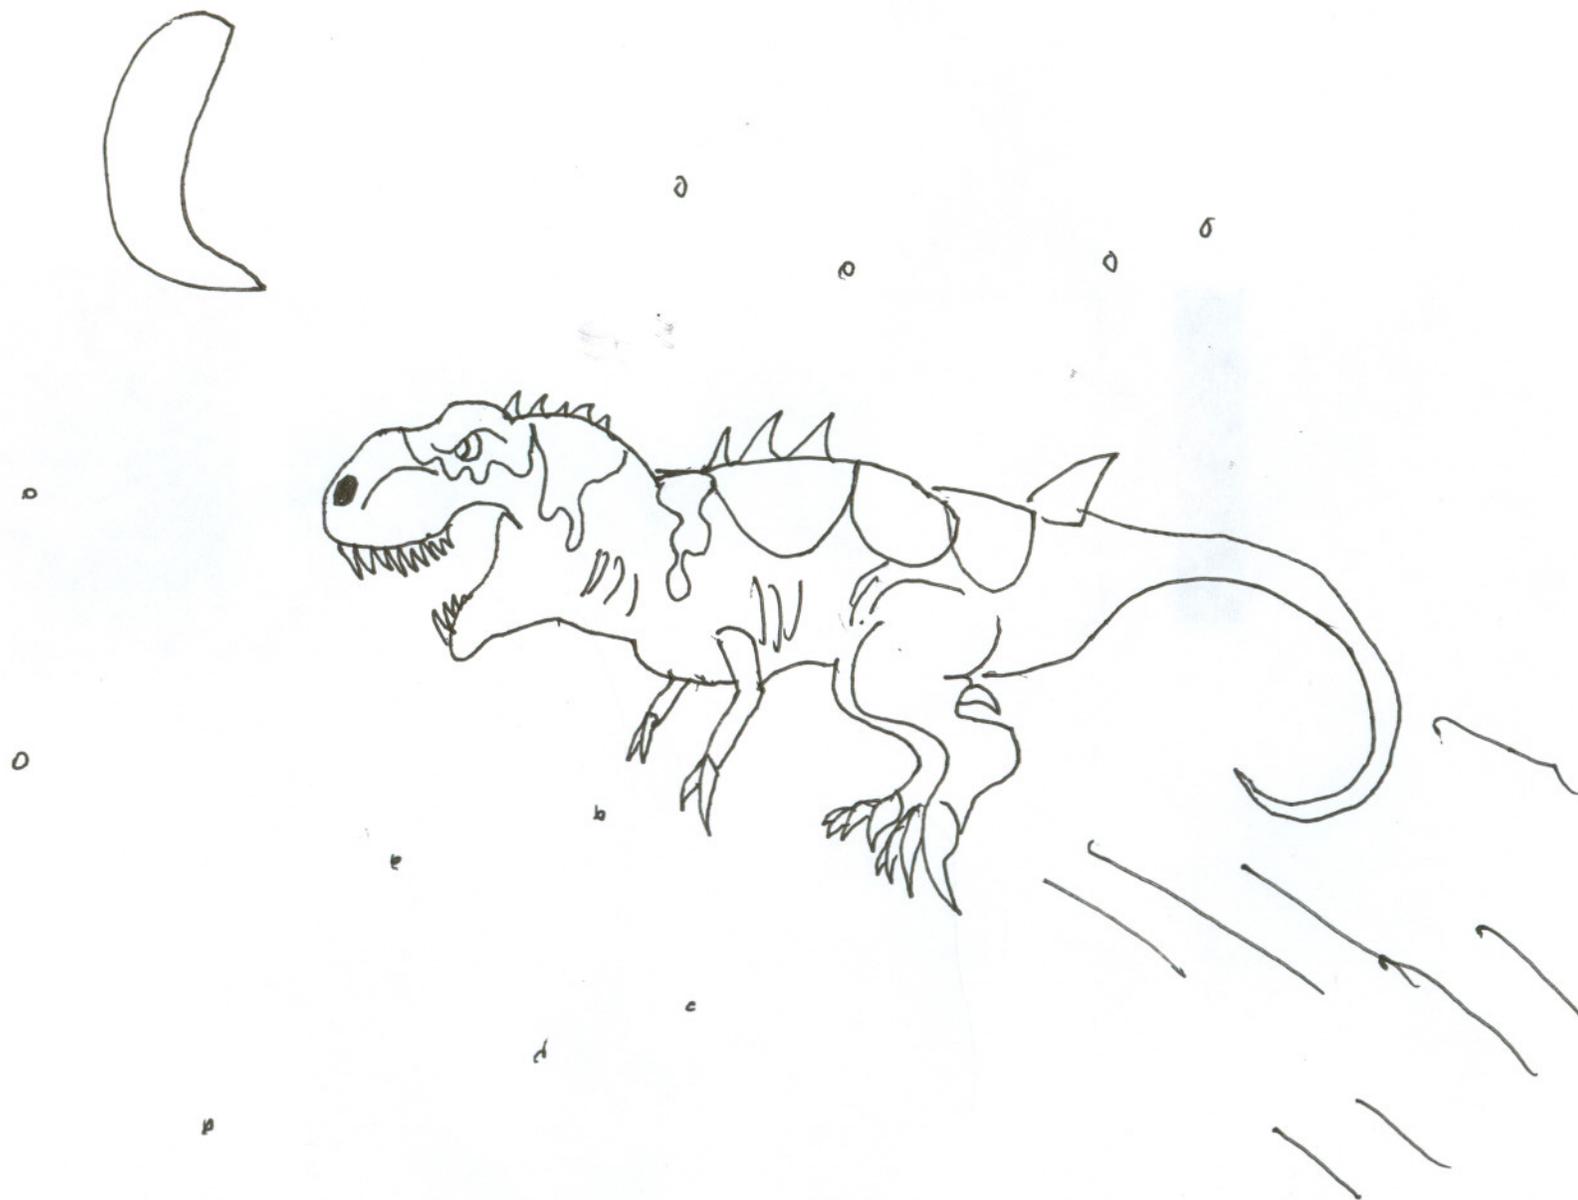

One night somebody stole Rex from Kevin's room. His mom thought it was fine but Kevin didn't think so. He said "I loved him and somebody stole him!". His mom felt sad.

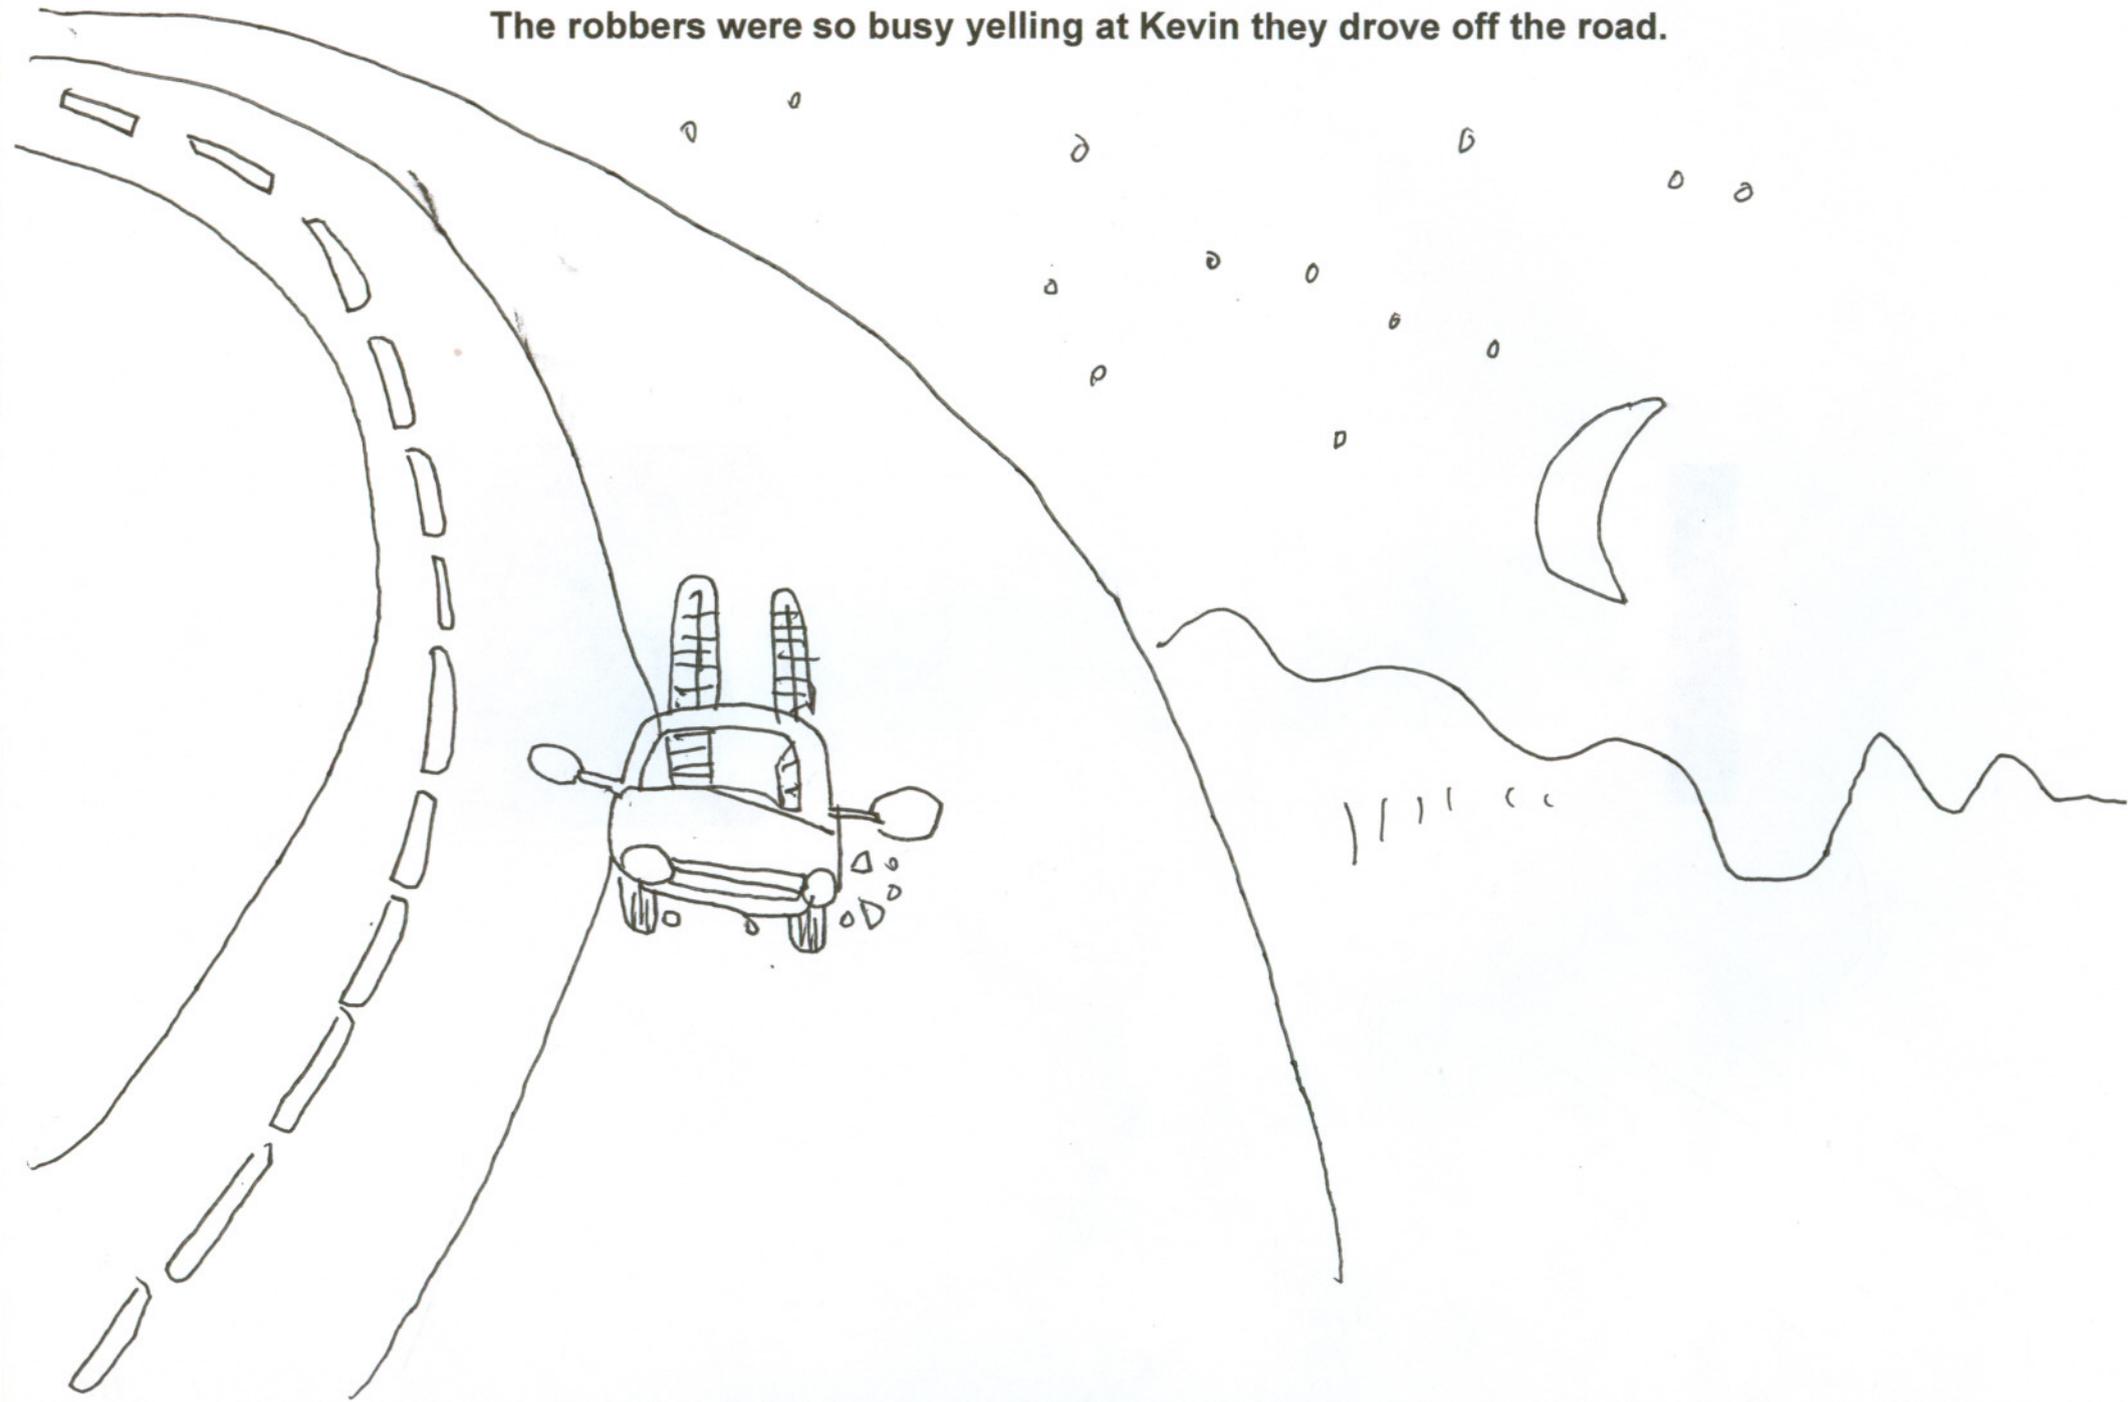

"OK," said Kevin's mom. "We're going to go find him". They both got into their car. They saw another car with a big dinosaur in it. Kevin shouted, "That's my dinosaur!"

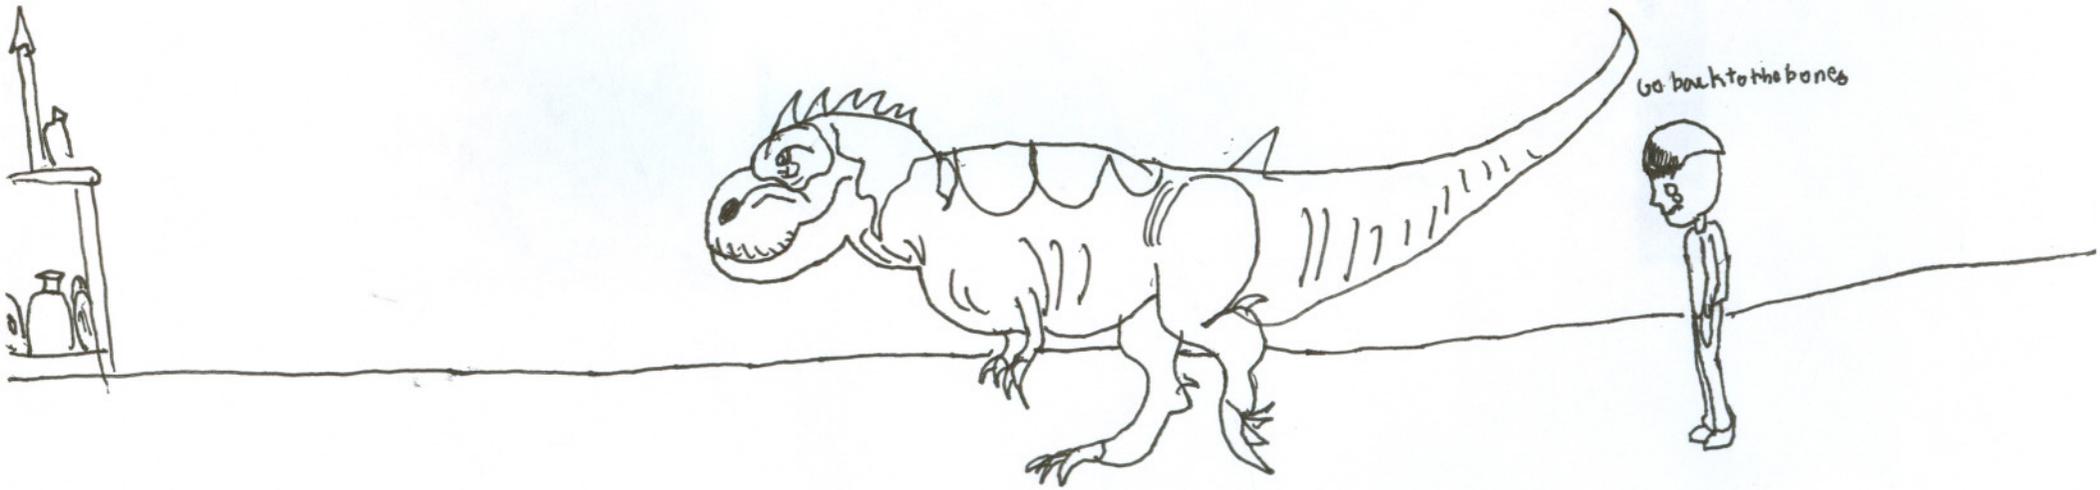

The robbers did not hear him. This time Kevin shouted even louder. The robbers told Kevin to be quiet. Kevin's mom ran into the robbers' car and made a dent. Rex jumped out of the robbers' car and into Kevin's car.

The robbers were so busy yelling at Kevin they drove off the road.

Kevin and his mom took Rex back to his bones at the museum.

Twenty-five years later Kevin took his son, Colt, to the museum. Rex followed them home.
