

Welcome!

SDPB Educational Services

Welcome to the 2008-2009 Guide to Programs and Resources for the Educational Television (ETV) season, brought to you by SDPB, in cooperation with the South Dakota Department of Education. The educational services, resources, and programs offered by the Education & Outreach Department at SDPB are available free-of-charge for teachers and students to use in the classroom.

Meet the SDPB Education and Outreach Staff

The three members of the SDPB Education & Outreach Department work to support education efforts in South Dakota. Please contact us at any time or stop by our booth at statewide education conferences throughout the school year.

Educational Television Programs

Program descriptions and episode listings are available online at SDPB.org in the "Education" section. Click on the ETV Program Guide link to find the list of programs. Check the television broadcast schedules to find the date and time to record the program or series. Special requests may be made by contacting the SDPB Education & Outreach Department.

SDPB TV'S Overnight Broadcast Schedule

Most ETV programs are aired in the early morning hours (1:00-5:00 am CT/midnight-4:00 am MT) on SDPB Television, Monday-Saturday.

Find the SDPB TV Overnight Schedule:

- *Education Update* e-newsletter
- www.SDPB.org
- SDPB Magazine

Teachers are encouraged to record the programs that would be useful in the classroom. Special requests may be made by contacting the SDPB E&O Department, 1-800-456-0766.

Education Update Newsletter

Timely information about the programs and resources available for the classroom from SDPB is found in our weekly electronic newsletter, *Education Update from SDPB*. Schedules, broadcast announcements, web resources, professional development information, contests, and special events for the upcoming week are included in each issue. Best of all, it's free! Sign up at the *Education Update* link found in the "Education" section at SDPB.org. It's that simple!

Teacher's Guides

Many ETV programs have an electronic teacher's guide available for educators. Links to TG's are posted in the ETV Program Guide found at SDPB.org in the "Education" section.

Recording Rights

Information on recording rights may be found in the SDPB ETV Programs and Resources Guide posted in the "Education" section at SDPB.org.

Presentations

Staff development presentations are available, at no cost, for schools and conferences. We also give presentations designed especially for parents of preschool children. Our sessions are very informative and often include free resources and materials to take back to the classroom or home.

PBS TEACHERS

Are You a PBS Teacher? You are if you use digital media to teach! Register at SDPB.org for resources aligned to your subject & grade, and much more!

Reading Rainbow Young Writers & Illustrators Contests

SDPB hosts the Young Writers & Illustrators Contest, sponsored nationally by *Reading Rainbow*, for students in Kindergarten through Third Grade who write and illustrate their own stories. The 2009 contest begins in January. Previous contest winners may be seen at SDPB.org in the "Education" section.

Ready To Learn

The goal of the Ready To Learn project is to increase the potential for public television programs to enhance children's cognitive and social skills. SDPB provides free RTL workshops for parents, care providers and educators of young children. Contact SDPB for more information.

Public Television Can Be a Powerful Educational Tool

Video can breathe meaning and life into nearly any lesson, providing a common experience for all students, and offering a different perspective or another approach to a topic. Count on SDPB to connect you with high-quality video for your lessons.

Explore the "Education" Section at SDPB.ORG

When you click on the "Education" tab at SDPB.org, you will find multi-media resources for teachers, students and lifelong learners. Check out our web destination for preK-12 educators.
